NEW ORLEANS. August 10.—The early trading in cotton today saw a buige of nearly \$10 a bale on the October position as the result of a reported private bureau mid-month condition figure of 67, indicating a crop deterioration for the half month of 6.6 points. October rose to 20.53 after having traded down to 19.55 soon after the opening. The opening was lower under poor cables and the unfavorable foreign news. Selling was general for a short time, forcing declines under yesterday's close of 15 to 26 points. When the rally came it was very sharp and strong and carried everything before it. At the end of the first hour of the session prices were 45 to 72 points higher than yesterday's final.

USE GERMAN POSTS.

By Cable to The Star and Chicago Daily News Copyright, 1922. BERLIN, August 10.-German pos BERLIN, August 10.—German post offices, especially in the frontier towns, will soon be overworked, if the practice of Danish business houses in posting foreign mail in Germany becomes general. A letter posted in Denmark to a foreign country costs 60 cere, which is equivalent to 120 marks, while the same letter posted in Germany costs 6 marks, making a saving of 114 marks per letter.

Danish firms are now sending messengers across the frontier to post non-urgent foreign mail in Germany at a cheap rate. Nothing illegal has yet been discovered in this practice,

Market Holds Fast.

Altogether, it was a greater trial of the market's endurance than any so far. The result, however, was quite the same as on previous days.

Some selling, obviously of professional origin, came in at the outset and both rails and industrial shares fell away a half point to a point. Then the decline was checked and, seeing that no stocks were being offered at the lower levels, trading offered at the lower levels, trading offered at the lower levels, trading offered the lower levels tradically selected issues.

ing offered at the lower levels, tradeers set about bidding up various carefully selected issues.

Northwestern Rails Feature.
